Independent Auditors' Report

The Board of Trustees
The University of Chicago:

We have audited the accompanying consolidated balance sheets of The University of Chicago (the University) as of June 30, 2008 and 2007, and the related consolidated statements of activities and cash flows for the years then ended. These consolidated financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of The University of Chicago Medical Center (the Medical Center), which statements reflect total assets constituting 15% and 15% and total revenues constituting 43% and 32% of the related consolidated totals in 2008 and 2007, respectively. Our opinion, insofar as it relates to the amounts included for the Medical Center, is based solely on the report of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of The University of Chicago as of June 30, 2008 and 2007, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated September 26, 2008, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Our 2008 audit was performed for the purpose of forming an opinion on the consolidated financial statements of the University taken as a whole. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2008 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the 2008 basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the 2008 basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2008 basic consolidated financial statements taken as a whole.

KPMG LLP

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(1) Summary of Significant Accounting Policies

(a) Description of Business

The University of Chicago (the University) is a private, nondenominational, coeducational institution of higher learning and research. The University provides education and training services, primarily for students enrolled in undergraduate, graduate, and professional degree programs, and performs research, training, and other services under grants, contracts, and other agreements with sponsoring organizations, including both government agencies and private enterprises. Certain members of the University's faculty also provide professional medical services to patients at The University of Chicago Medical Center (the Medical Center) and other healthcare facilities located in the area.

Significant accounting policies followed by the University and the Medical Center are set forth below. Accounting policies specific to the Medical Center are discussed in note 2.

(b) Basis of Presentation

The consolidated financial statements of the University have been prepared on the accrual basis and include the accounts of the University and the Medical Center. The organization of the Medical Center and agreements between the University and the Medical Center are discussed in note 2.

The University maintains its accounts in accordance with the principles of fund accounting. Under this method of accounting, resources for various purposes are classified into funds that are in accordance with activities or objectives specified by donors. Separate accounts are maintained for each fund.

For reporting purposes, however, the University follows the reporting requirements of the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants (AICPA), *Audit and Accounting Guide for Not-for-Profit Organizations*, which requires that resources be classified for reporting purposes based on the existence or absence of donor-imposed restrictions. This is accomplished by classification of fund balances into three classes of net assets – unrestricted, temporarily restricted, and permanently restricted. Descriptions of the three net asset categories and the types of transactions affecting each category follow:

- *Unrestricted* – net assets that are not subject to donor-imposed restrictions. Items that affect this net asset category principally consist of fees for service and related expenses associated with the core activities of the University – instruction, conduct of sponsored research, and provision of healthcare services. In addition to these exchange transactions, changes in this category of net assets include investment return on endowment funds, actuarial adjustments to self-insurance liabilities, and certain types of philanthropic support. Such philanthropic support includes unrestricted gifts, including those designated by the Board to function as endowment and restricted gifts whose donor-imposed restrictions were met during the fiscal year, as well as restricted gifts and grants for buildings and equipment that have been amortized over the useful life of the assets acquired or constructed.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

- *Temporarily Restricted* – net assets subject to donor-imposed restrictions that will be met either by actions of the University or the passage of time. Items that affect this net asset category are gifts for which donor-imposed restrictions have not been met, gifts and grants for buildings and equipment, annuity and life income gifts, pledges for which the ultimate purpose of the proceeds is not permanently restricted, and endowments where the principal may be expended upon the passage of a stated period of time (term endowments). Expirations of restrictions on temporarily restricted net assets, including amortization of restricted gifts and grants for buildings and equipment, are reported as net assets released from restrictions.
- *Permanently Restricted* – net assets subject to donor-imposed restrictions to be maintained permanently by the University. Items that affect this net asset category include gifts and pledges wherein donors stipulate that the corpus be held in perpetuity (primarily gifts for endowment and providing loans to students) and only the income be made available for program operations, and annuity and life income gifts for which the ultimate purpose of the proceeds is permanently restricted.

Net assets consisted of the following at June 30:

<u>Detail of net assets</u>	2008			<u>Total</u>	<u>2007 Total</u>
	<u>Unrestricted</u>	<u>Temporarily restricted</u>	<u>Permanently restricted</u>		
University:					
Operating	\$ (253,375)	13,692	—	(239,683)	(166,829)
Pledges	—	183,683	76,020	259,703	192,927
Student loans	—	—	16,018	16,018	15,192
Endowment	4,860,800	30,022	1,042,939	5,933,761	5,832,226
Annuity and life income	—	15,378	28,964	44,342	53,809
Net investment in physical properties	129,136	182,700	—	311,836	327,946
Subtotal	4,736,561	425,475	1,163,941	6,325,977	6,255,271
Medical Center:					
Operating	245,074	28,462	—	273,536	538,216
Pledges	—	21,815	180	21,995	18,430
Endowment	499,804	—	5,901	505,705	210,080
Net investment in physical properties	154,777	—	—	154,777	143,836
Subtotal	899,655	50,277	6,081	956,013	910,562
Total	\$ 5,636,216	475,752	1,170,022	7,281,990	7,165,833

(c) *Operations*

Operating results in the consolidated statements of activities reflect all transactions increasing or decreasing unrestricted net assets except those items associated with long-term investment, actuarial adjustments to self-insurance liabilities, and other infrequent gains and losses.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(d) Tuition and Fees

Student tuition and fees are recorded as revenue during the year the related academic services are rendered. Student tuition and fees received in advance of services to be rendered are recorded as deferred revenue.

(e) Gifts, Grants, and Contracts

Gifts, including unconditional pledges, are recognized in the appropriate category of net assets in the period received. Contributions of assets other than cash are recorded at their estimated fair value at date of gift. Pledges receivable are stated at the estimated net present value, net of an allowance for uncollectible amounts. Conditional promises to give are not recognized until the conditions on which they depend are substantially met.

Revenue from government and private grant and contract agreements is recognized as it is earned through expenditure in accordance with the agreements. Any funding received in advance of expenditure is recorded as deferred revenue on the consolidated balance sheets. Included in deferred revenue at June 30, 2008 and 2007 are \$46,994 and \$45,746, respectively, of private grant and contract receipts, which have not been expended.

Private gifts, grants, and contracts operating revenue for fiscal years 2008 and 2007 consist of the following:

	2008			2007
	University	Medical Center	Consolidated	Consolidated
Private gifts:				
Unrestricted as to use	\$ 17,589	1,189	18,778	18,671
Temporarily restricted gifts whose restrictions were met during the fiscal year and reported as unrestricted revenue	52,682	—	52,682	44,135
Private grants and contracts	62,883	—	62,883	57,006
Total	\$ 133,154	1,189	134,343	119,812

(f) Endowment Payout

The University utilizes the total return concept in allocating endowment income. In accordance with the University's total return objective, between 4.5% and 5.5% of a 12-quarter moving average of the fair value of endowment investments, lagged by one year, is available each year for expenditure in the form of endowment payout. The exact payout percentage, which is set each year by the Board

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

of Trustees with the objective of a 5% average payout over time, was 5.0% and 5.2% for the fiscal years ended June 30, 2008 and 2007, respectively.

If endowment income received is not sufficient to support the total return objective, the balance is provided from capital gains. If income received is in excess of the objective, the balance is reinvested in the endowment.

Endowment payout for fiscal years 2008 and 2007 consists of the following:

	2008			2007
	University	Medical Center	Consolidated	Consolidated
Interest, dividends, and rents	\$ 82,843	4,753	87,596	93,944
Investment gains used to support the endowment payout formula	137,212	8,300	145,512	109,020
Total	\$ 220,055	13,053	233,108	202,964

Unrestricted operating endowment payout revenue for fiscal years 2008 and 2007 consists of the following:

	2008			2007
	University	Medical Center	Consolidated	Consolidated
Unrestricted payout	\$ 56,882	13,053	69,935	59,121
Temporarily restricted payout whose restrictions were met during the fiscal year and reported as unrestricted revenue	161,041	—	161,041	141,859
Total	\$ 217,923	13,053	230,976	200,980

(g) Patient Care

Net patient service revenue reflects the estimated net realizable amounts due from third-party payors for services rendered. A majority of patient care revenue is derived from contractual agreements with Medicare, Medicaid, Blue Cross/Blue Shield, managed care, and certain other programs. Payments under these agreements and programs are based on specific amounts per case or contracted prices. Certain revenue received from third-party payors is subject to audit and retroactive adjustment. Any changes in estimates under these contracts are recorded in operations currently.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(h) Cash Equivalents

Cash equivalents include U.S. Treasury notes, commercial paper, and corporate notes with original maturities of three months or less, except that such instruments purchased with endowment assets or funds on deposit with bond trustees are classified as investments.

(i) Investments

Investments are recorded in the consolidated financial statements at fair value. The fair value of investments is based on quoted market prices, except for certain alternative investments, such as private equity, real assets, and absolute return, for which quoted market prices may not be available. The estimated fair value for absolute return, private equity, and real asset investments is based on valuations provided by the external investment managers. The valuations for these alternative investments necessarily involve estimates, appraisals, assumptions, and methods which are reviewed by the University's Investment Office.

The University does not engage directly in unhedged speculative investments; however, the board of trustees has authorized derivative investments to gain market exposure within asset class ranges, hedge nondollar investments, and currencies, and provide for defensive portfolio strategies. Derivative investments are recorded at fair value and valuation gains and losses are included in the consolidated statements of activities.

To minimize the risk of loss, externally managed hedge fund investments are diversified by strategy, external manager, and number of positions. In addition, the activities of all external hedge fund managers are regularly reviewed by their independent outside auditors and the University Investment Office. The risk of any derivative exposure associated with an externally managed hedge fund is limited to the amount invested with each manager. Investment managers' record derivative investments at fair value and valuation gains and losses are included in the consolidated statements of activities.

(j) Land, Buildings, Equipment, and Books

Land, buildings, equipment, and books are generally stated at cost, less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the assets.

(k) Asset Retirement Obligation

Asset retirement obligations arise primarily from regulations that specify how to dispose of asbestos if facilities are demolished or undergo major renovations or repairs. The obligation to remove asbestos was estimated using site specific surveys where available and a per square foot estimate where surveys were unavailable.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(l) Correction of Prior Year Misstatements

In fiscal year 2007, the Securities and Exchange Commission staff issued Staff Accounting Bulletin No. 108 (SAB 108), *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. Although SAB 108 is directly applicable to public companies, the University and Medical Center elected to follow the prescribed guidance for fiscal 2007 recognition of prior year financial statement misstatements previously considered immaterial to the financial statements taken as a whole.

Following the guidance of SAB 108, the University and Medical Center recognized the cumulative effect of the application of SAB 108 as a fiscal 2007 nonoperating increase in unrestricted net assets as follows:

	2007			Fiscal
	University	Medical Center	Total	years affected
Increase in the value of investments related to more timely valuation of certain alternative investments	\$ 35,400	1,400	36,800	2006
Decrease in accounts payable and accrued expenses related to third-party settlements	—	35,000	35,000	1990 – 2000
Increase in prepaid expenses and other assets related to the valuation of a trust	—	11,762	11,762	2004 – 2006
Decrease in accounts payable and accrued expenses related to reversal of prior year program-related liabilities	—	3,299	3,299	1999 – 2006
Increase in land, buildings, equipment, and books related to capitalization of prior year capital project costs	—	1,222	1,222	2006
	\$ 35,400	52,683	88,083	

(m) Split Interest Agreements

The University's split interest agreements with donors consist primarily of irrevocable charitable remainder trusts for which the University serves as trustee. Assets held in these trusts are included in investments. Contribution revenue is recognized at the dates the trusts are established after recording liabilities for the present value of the estimated future payments to be made to the donors and/or other beneficiaries. The liabilities are adjusted during the term of the trusts for changes in the value of the assets, accretion of the discount, and other changes in the estimates of future benefits.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(n) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires that management make a number of estimates and assumptions related to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the balance sheet date, and the reporting of revenue, expenses, gains, and losses during the period. Actual results may differ from those estimates.

(o) Reclassifications

Certain 2007 amounts have been reclassified to conform to the 2008 presentation.

(2) The University of Chicago Medical Center

(a) Organization

The University of Chicago Medical Center, an Illinois not-for-profit corporation, operates the Bernard Mitchell Hospital, the Chicago Lying-In Hospital, the University of Chicago Comer Children's Hospital, the Duchossois Center for Advanced Medicine, and various other outpatient clinics and treatment areas, including QV, Inc., an affiliated not-for-profit healthcare corporation operating clinics in the Chicago area. Prior to August 2006, the Medical Center was named the University of Chicago Hospitals. The University, as the sole corporate member of the Medical Center, elects the Medical Center's Board of Trustees and approves its By-Laws.

(b) Agreements with the University

The relationship between the University and the Medical Center is defined in an Affiliation Agreement and an Operating Agreement along with an associated Lease Agreement. The Affiliation Agreement specifies University and Medical Center responsibilities for the provision of patient care, teaching, and research at the hospitals and clinics. The Operating Agreement provides for the management and operation by the Medical Center of the University's hospital and clinic facilities. The Lease Agreement provides a leasehold interest in the University healthcare facilities and certain land and parking structures.

(c) Basis of Presentation

The Medical Center maintains its accounts and prepares stand-alone financial statements in conformity with accounting and reporting principles of the AICPA *Audit and Accounting Guide for Health Care Organizations*. For purposes of presentation of the Medical Center financial position and changes in net assets in the consolidated financial statements, several reclassifications have been made as follows: (1) the provision for uncollectible Medical Center's patient accounts receivable of \$46,968 in fiscal year 2008 and \$56,022 in fiscal year 2007 has been reclassified as a reduction of patient care revenue and (2) investment gains of \$69,876 in fiscal year 2008 and \$29,411 in fiscal year 2007 not used for operations have been reclassified as a nonoperating change in unrestricted net assets.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(a) Fiscal 2008 Transactions

During fiscal year 2008, the University issued \$123,604 in adjustable rate revenue bonds through the IFA. Proceeds from the IFA Series 2008 bonds were used to purchase U.S. government securities which were deposited in an irrevocable trust solely for the purpose of making principal and interest payments on \$121,810 of IEFA Series 1998A bonds. Accordingly, the IFA Series 1998A bonds have been legally extinguished, and neither the indebtedness nor the assets of the irrevocable trust are included in the 2008 consolidated balance sheet. Subsequently, the University entered into an interest rate swap agreement that has the effect of fixing the rate of interest at 3.2% for the IFA Series 2008 bonds.

In June 2008, the University implemented a taxable commercial paper program to provide interim financing for the construction and renovation of educational facilities and to provide financing for capital projects that cannot be financed with tax-exempt debt. This program enables the University to issue up to \$200,000 in notes. As of June 30, 2008, there was \$50,000 in taxable commercial paper notes outstanding.

The Medical Center IHFA Series 1994C and 1998 variable rate debt is supported by separate bank liquidity facilities. On June 30, 2008, \$51,800 and \$91,500 of these series were tendered under these facilities. These bank bonds bear interest at 5.0% and require repayment in five years. The remaining outstanding debt of \$3,600 and \$19,100 bear interest at 9.0% and 7.8%, respectively.

(b) Defeased Debt

As of June 30, 2008 and 2007, the total principal amount of indebtedness considered to be legally extinguished and, therefore, excluded from the University notes and bonds payable was \$196,980 and \$77,535, respectively.

(c) Interest Rate Swaps

In order to reduce exposure to adjustable interest rates on variable rate debt, the University entered into interest rate swap agreements involving the IFA Series 2004C and Series 2008 adjustable rate bonds. These agreements have the effect of fixing the rate of interest for the variable rate debt. The fair value of these swap agreements are the estimated amount that the University would pay or receive to terminate the agreements as of the consolidated balance sheet date, taking into account current interest rates and the current creditworthiness of the swap counterparty. The fair value of the interest rate swap agreements was an accrued liability of \$5,661 at June 30, 2008 and an accrued asset of \$966 at June 30, 2007. This financial instrument involves counterparty credit exposure. The counterparty for this swap transaction is a major financial institution that meets the University's criteria for financial stability and creditworthiness.

(d) Debt Payments

Principal payments required for University notes and bonds in each of the five years ending June 30, 2009 through 2013 are approximately \$11,512; \$13,622; \$15,709; \$15,199; and \$15,883, respectively.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

Principal payments required in each of the five years ending June 30, 2009 through 2013 for the Medical Center notes and bonds are approximately \$8,845; \$8,615; \$8,965; \$9,420; and \$9,900 respectively.

(e) Carrying Value

The carrying value of long-term debt does not differ materially from its estimated fair value as of June 30, 2008 and 2007, based on quoted market prices for the same or similar issues.

(f) Collateral

The University's June 30, 2008 notes and bonds payable are secured by certain physical properties with a carrying value of approximately \$225 and \$7,919 of assets held by trustees for debt service. ISAC bonds payable are fully collateralized by student loans receivable that are fully guaranteed by the federal government. The University's IEFA Pooled Financing Program bonds and IFA Series 2008 variable rate bonds are guaranteed by bank lines of credit. The remainder of the University's variable rate debt is guaranteed by a \$150,000 bank letter of credit.

Each of the Medical Center IHFA bond series is collateralized and subject to certain restrictions. The Medical Center Series 1994, 1998, 2001, and 2003 bonds are guaranteed by a municipal bond insurance policy.

Payment on the University and Medical Center IEFA Pooled Financing Program bonds is guaranteed by a bank letter of credit.

(g) Remarketing

Included in the University and Medical Center notes and bonds payable are \$741,252 and \$261,488, respectively, of variable rate notes and bonds maturing through fiscal year 2038. In the event the University's and Medical Center remarketing agents are unable to remarket the notes and bonds, they become a demand note and require immediate payment.

(h) Subsequent Event

On September 3, 2008, the Medical Center obtained a total of \$165,000 in taxable lines of credit from three banks. These lines bear variable interest rates and expire in six months. The lines were used to redeem IHFA Series 1994C and 1998 bonds. The Medical Center plans to issue new fixed and variable rate debt to repay the lines before they expire.

(7) Securities Loaned

The University has an agreement with its investment custodian to lend University securities to brokers in exchange for a fee. Among other provisions that limit the University's risk, the security lending agreement specifies that the custodian is responsible for the lending of securities and obtaining adequate collateral from the borrower. Collateral is limited to cash, government securities, and irrevocable letters of credit. At June 30, 2008 and 2007, investment securities with an aggregate market value of \$378,023 and \$532,412, respectively, were loaned to various brokers and are returnable on demand. In exchange, the University

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

received cash collateral of \$306,223 and \$494,429 and noncash collateral of \$81,872 and \$49,576, at June 30, 2008 and 2007, respectively. Cash collateral is reported as both an asset and liability of the University.

(8) Pledges

Pledges receivable at June 30, 2008 and 2007 are shown below:

	2008			2007
	University	Medical Center	Consolidated	Consolidated
Unconditional promises expected to be collected in:				
Less than one year	\$ 86,454	7,002	93,456	84,514
One year to five years	212,775	13,294	226,069	148,034
More than five years	54,045	4,982	59,027	52,091
	<u>353,274</u>	<u>25,278</u>	<u>378,552</u>	<u>284,639</u>
Less unamortized discount and allowance for uncollectible pledges	(93,571)	(3,283)	(96,854)	(73,282)
Total	<u>\$ 259,703</u>	<u>21,995</u>	<u>281,698</u>	<u>211,357</u>

In addition, at June 30, 2008, the University has received \$64,575 of promises to give, which are conditional upon the raising of matching gifts from other sources, implementation of academic programs, or completion of construction projects. These amounts will be recognized as revenue in the periods in which the conditions are fulfilled.

(9) Self-Insurance Liability

The University maintains a self-insurance program for medical malpractice liability. This program is supplemented with commercial excess insurance above the University's self-insurance retention, which, for the years ended June 30, 2008 and 2007 was \$10,000 per claim and unlimited in annual aggregate. Claims in excess of \$10,000 are subject to an additional self-insurance retention limited to \$15,000 per claim and \$15,000 in annual aggregate. The Medical Center is included under this insurance program and is charged for their portion of self-insurance costs. The University and Medical Center also maintain a self-insurance program for workers' compensation and certain other liability claims.

Under the medical malpractice self-insurance program, the University makes annual contributions to a related trust fund at an actuarially determined rate that is intended to provide adequate funding of the self-insurance liability over a period of years. Actual settlements of medical malpractice claims may be more or less than the liability estimated by the University.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

The medical malpractice self-insurance liability is the estimated present value of self-insured claims that will be settled in the future, and considers anticipated payout patterns as well as interest to be earned on available assets prior to payment. If the present value method was not used, the liability for medical malpractice self-insurance claims would be approximately \$45,300 higher than the amount recorded in the consolidated financial statements at June 30, 2008. The interest rate assumed in determining the present value was 6.0%.

The estimated liability for incurred malpractice, workers' compensation, and other claims (filed and unfiled) as of June 30, 2008 and 2007 is presented below:

	2008			2007
	University	Medical Center	Consolidated	
Medical malpractice	\$ 189,186	—	189,186	181,550
Workers' compensation	3,441	6,215	9,656	10,262
Other	2,906	—	2,906	3,104
Total	\$ 195,533	6,215	201,748	194,916

(10) Pension Plans and Other Postretirement Benefits

Substantially all personnel of the University participate in either the defined contribution pension plan for academic staff or the defined benefit and contribution pension plans for nonacademic personnel. The majority of Medical Center employees participate in the University's pension plan for nonacademic employees. The University and Medical Center make annual contributions to the defined benefit pension plan at a rate necessary to maintain plan funding on an actuarially recommended basis. Based primarily on participation, the University and Medical Center share equally in contributions made to the defined benefit pension plan.

In addition to providing pension benefits, the University provides certain healthcare benefits for retired employees and a retirement incentive bonus for eligible faculty electing to participate in a retirement incentive program. In addition to a retirement bonus, all Medicare eligible-tenured faculty who elect to participate in the retirement incentive program receive supplemental health insurance at no cost for themselves and their spouses. All other academic and nonacademic employees are entitled to supplemental health insurance coverage subject to deductibles, copayment provisions, and other limitations.

In fiscal year 2007, the University adopted Financial Accounting Standards Board Statement No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*. SFAS 158 requires an employer to recognize the funded status of defined benefit pension and other postretirement benefit plans in the statement of financial position at year-end and to recognize changes in the funded status as a change in unrestricted net assets in the year in which the changes occur.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

The incremental effect for the adoption of SFAS 158 was an increase in the accrued pension and other postretirement benefit obligation of \$117,255 with a corresponding nonoperating decrease in unrestricted net assets. The accumulated charge to unrestricted net assets consisted of amounts that had not yet been recognized in net periodic benefit cost as follows: unrecognized actuarial loss of \$122,150, unrecognized transition obligation of \$7,577, and unrecognized prior service credit of \$12,472. These amounts will be recognized in future years as components of net periodic pension cost.

The funded status and amounts recognized in the consolidated financial statements for the defined benefit pension plan and other postretirement benefit plans are shown below:

	Defined benefit pension plan		Other postretirement benefit plans	
	2008	2007	2008	2007
Change in benefit obligation:				
Benefit obligation at beginning of year	\$ 423,208	403,771	143,200	129,844
Service cost	25,681	24,513	6,043	5,663
Interest cost	26,451	25,227	8,920	8,028
Benefits paid	(29,498)	(27,944)	(7,778)	(8,850)
Actuarial loss (gain), net	(37,426)	(2,359)	(6,437)	8,515
Benefit obligation at end of year	<u>408,416</u>	<u>423,208</u>	<u>143,948</u>	<u>143,200</u>
Change in fair value of plan assets:				
Fair value of plan assets at beginning of year	363,093	324,998	26,368	27,920
Actual return on plan assets	(38,156)	63,100	(525)	3,664
Employer contributions	24,325	2,939	2,364	3,634
Benefits paid	(29,498)	(27,944)	(7,778)	(8,850)
Fair value of plan assets at end of year	<u>319,764</u>	<u>363,093</u>	<u>20,429</u>	<u>26,368</u>
Funded status – liability	<u>\$ (88,652)</u>	<u>(60,115)</u>	<u>(123,519)</u>	<u>(116,832)</u>

The accumulated benefit obligation for the defined benefit pension plan was \$333,265 and \$339,308 at June 30, 2008 and 2007, respectively.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(a) Components of Net Periodic Benefit Cost

	Defined benefit pension plan		Other postretirement benefit plans	
	2008	2007	2008	2007
Service cost	\$ 25,681	24,513	6,043	5,663
Interest cost	26,451	25,227	8,920	8,028

Thereafter	—	—	5.0	5.0

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

The expected return on plan assets assumptions for both the defined benefit pension plan and the other postretirement benefit plans is based on historical returns for similar investment portfolios.

Assumed healthcare cost trend rates have a significant effect on the amounts reported for healthcare plans. A one-percentage point change in assumed healthcare cost trend rates would have the following effects for the fiscal years ended June 30:

	2008	2007
Effect on total service cost and interest cost:		
One-percentage point increase	\$ 2,462	2,110
One-percentage point decrease	(1,911)	(1,648)
Effect on year-end postretirement benefit obligation:		
One-percentage point increase	\$ 18,387	19,280
One-percentage point decrease	(14,946)	(15,568)

(c) Plan Assets

Weighted average asset allocations by asset category are as follows:

	Defined benefit pension plan		Other postretirement benefit plans	
	2008	2007	2008	2007
Domestic public equities	64%	65%	49%	64%
International public equities	21	21	—	—
Fixed income	15	14	51	36
	100%	100%	100%	100%

Plan assets for the defined benefit pension plan are managed through the Teachers Insurance and Annuity Association and College Retirement Equities Fund. The target asset allocation of 65% domestic public equities, 20% international public equities, and 15% fixed income securities are meant to result in a favorable long-term rate of return from a diversified portfolio of equity and fixed income investments. Plan assets for the other postretirement benefit plans are managed by the University and have a target asset allocation of 50% domestic public equities and 50% fixed income securities. Typical health plans have high and variable cash needs. The asset allocation targets reflect the assumption that cash flow out of plan assets is not expected in the short term.

(d) Contributions

The University expects to make no contribution to its postretirement healthcare plan and, along with the Medical Center, expects to make a \$16,262 contribution to the defined benefit pension plan in fiscal year 2009.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(e) ***Estimated Future Benefits Payments***

The following benefit payments, which reflect expected future service, are expected to be paid for each of the fiscal years ending June 30:

Fiscal year	Defined benefit pension plan	Other postretirement benefit plans
2009	\$ 22,992	6,338
2010	22,897	6,058
2011	23,455	7,888
2012	24,576	8,060
2013	25,584	9,493
2014 – 2018	141,940	49,436

(f) ***Prescription Drug Act***

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) was signed into law in December 2003. The Act provides for special tax-free subsidies to employers that offer retiree medical benefit plans with qualifying drug coverage. The University's postretirement plan currently meets Medicare's criteria for the tax-free subsidy because the University's plan provides for a higher level of reimbursement than Medicare. The University has recognized the effect of this subsidy in the calculation of its postretirement benefit obligation, the impact of which is to reduce the benefit obligation by \$34,929 and \$34,730 at June 30, 2008 and 2007, respectively.

(g) ***Curtailed Pension Plan***

The Medical Center maintains a separate noncontributory defined benefit pension plan on behalf of a former affiliated organization. Prior to assumption, the benefit plan was curtailed by freezing participation and benefit accruals. At June 30, 2008 and 2007, the benefit obligation for the plan exceeded the plan's assets thus creating an unfunded liability of \$8,002 and \$7,547 at June 30, 2008 and 2007, respectively.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(11) Functional Classification of Expenses

Expenses by functional classification for the years ended June 30, 2008 and 2007 are shown below:

	2008	2007
University:		
Academic and research:		
Instruction	\$ 692,172	660,696
Research	245,066	235,682
Auxiliary enterprises	139,776	122,352
Library	18,506	17,685
Student services	42,573	39,227
Operation and maintenance of physical plant	112,041	95,745
Depreciation	81,083	80,000
Interest on notes and bonds	41,826	40,516
Total academic and research	1,373,043	1,291,903
Administration:		
Institutional support	94,409	95,531
Informational services	51,620	53,566
Development	48,901	36,857
Operation and maintenance of physical plant	5,039	4,170
Depreciation	12,578	11,519
Interest on notes and bonds	5,799	4,138
Total administration	218,346	205,781
Total University	1,591,389	1,497,684
Medical Center:		
Healthcare service	912,653	879,989
General and administrative	88,986	100,653
	1,001,639	980,642
Total	\$ 2,593,028	2,478,326

The University's primary program services are instruction and research. Expenses reported as auxiliary enterprises, library, and student services are incurred in support of these primary program activities.

THE UNIVERSITY OF CHICAGO

Notes to Consolidated Financial Statements

June 30, 2008 and 2007

(In thousands of dollars)

(12) Affiliated Organizations

The University has an ongoing relationship with the National Opinion Research Center (NORC), a not-for-profit organization that conducts research in the public interest primarily for various federal agencies. The majority of NORC's board of trustees are faculty members or officers of the University. Program-related revenue for the years ended December 31, 2007 and 2006 was \$86,399 and \$98,890, respectively. Unrestricted net assets at December 31, 2007 and 2006 were \$16,743 and \$15,979 respectively. In addition, the University has guaranteed \$596 of NORC's debt. Consolidation of this not-for-profit organization is not required because the University does not have both control and an economic interest.

The University, through its affiliate UChicago Argonne, LLC, operates Argonne National Laboratory (ANL) under a contract with the U.S. Department of Energy (DOE). This contract provides for the payment of a fixed management allowance and an additional fee based on performance judged against established measures. The University is the sole member of UChicago Argonne, LLC; however, the performance fee is shared with two subcontractors that assist UChicago Argonne, LLC with the management and operation of ANL.

Beginning in fiscal year 2008, the University, as a member of Fermi Research Alliance, LLC (FRA), also operates Fermi National Accelerator Laboratory (Fermilab) on behalf of DOE. The Fermilab contract between DOE and FRA provides for the payment of a fixed management allowance and an additional performance fee. The University shares the performance fee with Universities Research Association, the other member of FRA, and with a subcontractor that assists FRA with the management and operation of Fermilab.

The expenditures under the respective contracts and the related reimbursements of \$526,455 for ANL and \$334,184 for Fermilab in fiscal year 2008, and \$490,327 for ANL and \$167,543 for Fermi in fiscal year 2007, are not included in the consolidated statements of activities. Net assets relating to ANL and to Fermilab are owned by the U.S. government and, therefore, are not included in the consolidated balance sheets.

(13) Contingencies

Various lawsuits, claims, and other contingent liabilities arise in the ordinary course of the University's education, research, and healthcare activities. In the opinion of management, all such matters have been adequately provided for, are without merit, or are of such kind that if disposed of unfavorably, would not have a material adverse effect on the consolidated financial position of the University.

THE UNIVERSITY OF CHICAGO

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2008

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) displays the expenditures charged to federal programs by The University of Chicago (the University) on the accrual basis of accounting for the year ended June 30, 2008. The Schedule excludes expenditures incurred for operating Argonne National Laboratory (ANL) and the Fermi National Accelerator (Fermilab). The University, through its affiliate UChicago Argonne, LLC, operates ANL under a contract with the U.S. Department of Energy (DOE). Beginning in fiscal year 2008, the University, as a member of Fermi Research Alliance, LLC (FRA), also operates Fermilab on behalf of DOE. The Schedule also excludes expenditures incurred by the University of Chicago Medical Center. The Schedule summarizes expenditures by:

- Research and Development, Student Financial Assistance, and TRIO clusters and other programs;
- Primary federal funding agency;
- Direct award agreements between the University and federal granting agencies; and
- Subaward (pass-through award) agreements between the University and nonfederal granting agencies.

Major Programs

The University's fiscal year 2008 major programs include the research and development and student financial assistance clusters and a construction grant from the National Institute of Allergy and Infectious Diseases (NIAID).

This research and development cluster includes those awards that are for basic and applied research and development activities and for research training. OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, defines research and development as follows: research is systematic study directed toward fuller scientific knowledge or understanding of the subject studied; development is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

The student financial assistance program cluster includes those awards that provide general student financial aid. They include Federal Pell grants, Federal Supplemental Educational Opportunity Grants (FSEOG), and Federal Work Study (FWS) awards. The University also receives awards to make loans to eligible students under the Perkins, Health Professions – Primary Care, and Loans to Disadvantaged Students loan programs. The University and various financial institutions also issue federally guaranteed loans to students under the Federal Family Educational Loan Program. The student financial assistance cluster does not include programs that provide fellowships or similar awards to students on a competitive basis; the Schedule classifies those programs as research and development or as training.

The NIAID construction grant provides funding for constructing a Regional Biocontainment Laboratory that will contain Biosafety Level 2 and 3 laboratories, animal facilities, and research support space.

THE UNIVERSITY OF CHICAGO

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2008

Nonmajor Programs

The University's fiscal year 2008 nonmajor programs include training and scholarly programs other than those included in the research and development cluster, public service, and operations. Training and scholarly programs include awards that support faculty and student training and other scholarly activities. Public service programs include activities that are established primarily to provide noninstructional services beneficial to individuals and groups external to the University. The operations program includes awards that support the University libraries.

Student Financial Assistance Expenditures

The University recognizes expenditures for federal student financial aid programs as they are incurred. Student financial aid programs with fiscal year 2008 expenditures include the Federal Pell program grants to students, the federal share of students' FSEOG program grants, and the federal share of the FWS program expenditures.

Direct and Indirect Federal Award Expenditures

Federal award expenditures consist of direct and indirect costs. Direct costs are those that can be easily identified with an individual federally sponsored project. The salary of a principal investigator of a sponsored research project and the materials consumed by the project are examples of direct costs.

Unlike direct costs, indirect costs cannot easily be identified with an individual federally sponsored project. Indirect costs are the costs of services and resources that benefit both sponsored and nonsponsored projects and activities. Indirect costs consist of expenses incurred for administration, library, plant maintenance, and building and equipment depreciation.

The University and federal agencies use an indirect cost rate to charge indirect costs to individual federally sponsored projects. The rate is the result of a number of complex cost allocation procedures that the University uses to allocate its indirect costs to both sponsored and nonsponsored activities. The costs allocated to sponsored projects are divided by the direct costs of sponsored projects to arrive at a rate. Before the rate is used, the U.S. Department of Health and Human Services must approve it.

(2) Summary of Indirect Costs

Indirect cost charges to federal awards for the year ended June 30, 2008 were as follows:

Research and development	\$	70,136,000
Other		659,410
Total	\$	<u>70,795,410</u>

THE UNIVERSITY OF CHICAGO

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2008

(3) Summary of Subrecipient Payments

Subrecipient payments charged to federal awards for the year ended June 30, 2008 were as follows:

Research and development:	
Department of Agriculture	\$ 391,113
Department of Defense	911,418
Department of Justice	23,617
National Aeronautics and Space Administration	90,041
National Science Foundation	9,048,976
Environmental Protection Agency	437,856
Department of Energy	311,191
Department of Education	357,223
Department of Health and Human Services	21,882,756
	<u>33,454,191</u>
Other:	
National Endowment for the Humanities	43,954
National Science Foundation	37,114
Department of Education	218,386
	<u>299,454</u>
Total	<u>\$ 33,753,645</u>

(4) Federal Loan Programs

Loans made to University students under the various federal loan programs for the year ended June 30, 2008 are summarized below:

University federal loans:	
Stafford	\$ 53,944,575
Perkins	6,404,203
Total University federal loans	<u>60,348,778</u>
Non-University federal loans:	
Stafford	18,671,952
Parent Loans for Undergraduate Students	34,749,417
Total non-University federal loans	<u>53,421,369</u>
Total	<u>\$ 113,770,147</u>

THE UNIVERSITY OF CHICAGO

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2008

University federal loans outstanding at June 30, 2008 are shown below:

University federal loans:	
Stafford	\$ 85,090,754
Perkins	37,722,444
Health professions	350,007
Loans to disadvantaged students	<u>14,079</u>
Total	\$ <u><u>123,177,284</u></u>

For non-University federal loans, the University is responsible only for the performance of certain administrative duties; therefore, the outstanding loans for those programs are not included in the University's consolidated financial statements.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Trustees
The University of Chicago:

We have audited the consolidated financial statements of The University of Chicago (the University) as of and for the year ended June 30, 2008 and 2007, and have issued our report thereon dated September 26, 2008. Our report is based on the report of other auditors insofar as it relates to the amounts included in the consolidated financial statements for The University of Chicago Medical Center. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audits, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express such an opinion on the effectiveness of the University's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to University management in a separate letter dated September 26, 2008.

This report is intended solely for the information and use of the Board of Trustees, University management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Chicago, IL 60601-5212

**Independent Auditors' Report on Compliance with Requirements
Applicable to Each Major Program and Internal Control over
Compliance in Accordance with OMB Circular A-133**

The Board of Trustees
The University of Chicago:

Compliance

We have audited the compliance of The University of Chicago (the University) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* (Compliance Supplement), that are applicable to each of its major federal programs for the year ended June 30, 2008, except those requirements discussed in the third and fourth paragraphs of this report. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

The University's consolidated financial statements include the operations of The University of Chicago Medical Center (the Medical Center), which received federal awards that are not included in the schedule of expenditures of federal awards for the year ended June 30, 2008. Our audit, described below, did not include the operations of the Medical Center because the Medical Center is audited by other auditors.

We did not audit the University's compliance with the requirements governing the billing, collection, and due diligence functions in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement. Those requirements govern functions performed by Campus Partners. Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. Campus Partners' compliance with the requirements governing the functions that it performed for the University for the year ended June 30, 2008 was examined by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' examination of Campus Partners' compliance with such requirements.

We did not audit the University's compliance with the requirements governing Reporting and Special Tests and Provisions 1 through 10 in accordance with the requirements of the Federal Family Education Loan program as described in section 84.032L of the Compliance Supplement (school as lender). Those requirements govern functions performed by Illinois Designated Account Purchase Program (IDAPP). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. IDAPP's compliance with the requirements governing the functions that it performed for the University for the year ended June 30, 2008 was examined by other accountants in

accordance with the U.S. Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) for Lenders and Lender Servicers Participating in the Federal Family Education Loan Program*. Our report does not include the results of the other accountants' examination of IDAPP's compliance with such requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial statement audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements described in the Compliance Supplement that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to in the first paragraph of this section that are applicable to each of its major federal programs for the year ended June 30, 2008 other than those requirements discussed in the third and fourth paragraphs of this section. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items 08-01 and 08-02.

Internal Control over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express such an opinion on the effectiveness of the University's internal control over compliance.

Requirements governing billing, collection, and due diligence functions in the Student Financial Assistance Cluster: Federal Perkins Loan Program as described in the Compliance Supplement are performed by Campus Partners. Internal control over compliance relating to such functions for the year ended June 30, 2008 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the other accountants' testing of Campus Partners' internal control over compliance related to such functions.

Requirements governing Reporting and Special Tests and Provisions 1 through 10 in the Federal Family Education Loan program as described in section 84.032L of the Compliance Supplement (school as lender) are performed by IDAPP. Internal control over compliance related to such functions for the year ended June 30, 2008 was reported on by other accountants in accordance with the U.S. Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) for Lenders and Lender Servicers Participating in the Federal Family Education Loan Program*. Therefore, the scope of our work did not extend to internal control maintained at IDAPP. Our report does not include the results of the other accountants' examination of IDAPP's internal control over compliance related to such functions.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as findings 08-01 and 08-02 to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider the deficiencies described in the accompanying schedule of findings and questioned costs to be material weaknesses.

The University's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Board of Trustees, University management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Year ended June 30, 2008

(3) Findings and Questioned Costs Relating to Federal Awards:

Federal Agency: US Department of Defense (DOD)
US Department of Health and Human Services (HHS)

Program Name: Research and Development Cluster

CFDA # and Program Expenditures: Various (\$277,704,820)

Award Numbers: Various

Questioned Costs: None

Finding 08-01 Activities Allowed/Allowable Costs – Annual Effort Certifications

Requirement

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation. OMB Circular A-21 requires that the distribution of salaries and wages for professorial and professional personnel be supported by annual effort certifications under the plan confirmation method.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure payroll expenditures are properly supported in accordance with OMB Circular A-21.

Condition Found

During our testwork over 60 payroll expenditures (totaling \$105,741), we noted two expenditures aggregating \$4,890, for which signed annual effort certifications were not on file. Upon further inquiries of University management, it was determined that annual effort certifications had not been signed for several personnel in the Pediatrics department. As Pediatrics department personnel had not updated planned effort allocations for changes throughout the year in accordance with the University's established policies and procedures, the annual effort certifications were believed to be inaccurate and could not be completed in a timely manner. Payroll, fringe benefit, and indirect costs charged to Research and Development cluster projects administered by the Pediatrics department approximated \$4,194,000, \$841,000, and \$2,347,000, respectively, during the year ended June 30, 2008. Total expenditures charged to the Research and Development Cluster projects administered by the Pediatrics department were \$8,746,000 for the year ended June 30, 2008.

Prior to the issuance of our report, University management represented that all missing annual effort certifications were completed for the Pediatrics department and corrections were made for any inaccurate payroll and fringe benefit charges to the federal programs and indirect costs were recomputed for each

THE UNIVERSITY OF CHICAGO
Schedule of Findings and Questioned Costs
Year ended June 30, 2008

grant. These corrections resulted in \$2,017,170 of expenditures being reclassified into the federal ledger and \$1,930,275 of expenditures being reclassified out of the federal ledger for fiscal year 2008. Our expanded testwork identified no additional exceptions.

Payroll, fringe benefit, and indirect costs charged to the Research and Development Cluster program approximated \$90,625,000, \$16,617,000, and \$70,136,000, respectively, during the year ended June 30, 2008. Total expenditures charged to the Research and Development Cluster program were \$277,704,820 for the year ended June 30, 2008.

Effect

Failure to properly process changes to effort allocations and complete annual effort certifications in a timely manner may result in unallowable costs being charged to federal programs.

Recommendation

We recommend the University implement additional monitoring procedures to ensure effort certifications are properly completed by all departments in a timely manner in accordance with federal regulations and University policies and procedures.

Views of Responsible Officials

The University agrees with the recommendation and has taken the following steps. The University's Biological Science Division, Office of Finance has implemented monitoring and follow-up procedures for all of its effort certification statements. The University is distributing its preliminary certification statements one month earlier in order to give departments additional time to review salary expense distributions and to submit necessary corrections prior to the production of final Certification Statements.

Questioned Costs: \$44,238

Finding 08-02 Activities Allowed/Allowable Costs – Equipment Expenditures

Requirement

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures are reported in the appropriate general ledger accounts.

THE UNIVERSITY OF CHICAGO
Schedule of Findings and Questioned Costs
Year ended June 30, 2008

Condition Found

During our testwork over 60 nonpayroll expenditures (totaling \$1,615,982), we noted four expenditures in the amount of \$82,687, which were incorrectly classified in the grant project ledger as supplies expense instead of as equipment expense. As a result of this misclassification, these expenditures were improperly included in the indirect cost base for these research projects and the projects were over-charged indirect costs in the amount of \$44,238. Total indirect costs charged to the Research and Development Cluster program totaled \$70,136,000 during the year ended June 30, 2008.

Effect

Failure to properly classify expenditures within project account ledgers may result in unallowable costs being charged to federal programs.

Recommendation

We recommend the University reinforces its established procedures to ensure expenditures are properly classified in project account ledgers.

Views of Responsible Officials

The University agrees with the recommendation. The University has brought the errors to the attention of the departmental administrators involved in the transaction, reclassified \$82,687 of supply expenditures to equipment, and removed \$44,238 of indirect cost charges from the affected awards. In addition, the University will reinforce to sponsored award administrators the importance of classifying award expenditures to correct object codes.

Finding 08-01 Activities Allowed/Allowable Costs – Annual Effort Certifications

Requirement

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation. OMB Circular A-21 requires that the distribution of salaries and wages for professorial and professional personnel be supported by annual effort certifications under the plan confirmation method.

Additionally, OMB Circular A-I10 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure payroll expenditures are properly supported in accordance with OMB Circular A-21.

Condition Found

During our testwork over 60 payroll expenditures (totaling \$105,741), we noted two expenditures aggregating \$4,890, for which signed annual effort certifications were not on file. Upon further inquiries of University management, it was determined that annual effort certifications had not been signed for several personnel in the Pediatrics department. As Pediatrics department personnel had not updated planned effort allocations for changes throughout the year in accordance with the University's established policies and procedures, the annual effort certifications were believed to be inaccurate and could not be completed in a timely manner. Payroll, fringe benefit, and indirect costs charged to Research and Development cluster projects administered by the Pediatrics department approximated \$4,194,000, \$841,000, and \$2,347,000, respectively, during the year ended June 30, 2008. Finding No. 07– 01: Overaward of Student Financial Assistance

Federal Agency: US Department of Education (USDE)
Program Name: Student Financial Assistance Cluster –Federal Family Education Loan Program (FFEL)
 Student Financial Assistance Cluster –Federal Work-Study Program
 Student Financial Assistance Cluster –Federal Perkins Loan Program

CFDA # and Program Expenditures:	84.032	\$91,341,247
	84.033	2,647,699
	84.038	8,642,944

Award Numbers:	None	(84.032)
	P033A051305	(84.033)
	P038A021305	(84.038)

Questioned Costs: \$33,809
Contact Person: Michael Kocelko, Bursar

Compliance Requirement

According to 24 CFR 674.9(c), a student is eligible if the student has financial need as determined in accordance with Part F of Title IV of the Higher Education Act. In addition, according to 34 CFR 682.201(a)(2)(i), in the case of any student who seeks an unsubsidized Stafford loan for the cost of attendance at a school that participates in the Stafford Loan Program, the student must receive a determination of need for a subsidized Stafford loan.

Auditor’s Finding

During our testwork over 30 graduate student financial assistance files, we identified one student who received need-based aid in excess of her financial need. Upon further review of this student’s aid package, we noted that student had been awarded additional institutional scholarship funds by her academic department after her aid had been packaged by the Graduate Student Loan Administration. The additional funds awarded by the academic department had not been communicated to the Graduate Student Loan Administration in accordance with procedures established by the University. As a result, this student received \$2,241 in subsidized loans in excess of her financial need.

In response to the exception identified in our testwork, University personnel performed a review of the packaging for all students for which changes were made in institutional aid after packaging had been completed. The University identified an additional 14 students that had been overawarded federal aid as a result of its review. The overawards identified by the University totaled \$33,809 and were attributable to the federal programs as follows:

84.032	Federal Family Educational Loan Program	\$19,536
84.033	Federal Work Study Program	8,859
84.038	Federal Perkins Loan Program	<u>5,414</u>
		<u>\$33,809</u>

The Graduate Student Loan Administration office awarded approximately \$39,211,000 in financial assistance to students.

**The University of Chicago
OMB Circular No. A-133 Audit
Summary Schedule of Prior Audit Findings
Year ended June 30, 2008**

Effect

Failure to properly award student financial assistance funds may result in unallowable costs being charged to the federal programs.

Auditor's Recommendation

We recommend the University review its current procedures for awarding student financial assistance and implement any changes necessary to ensure changes to awards of institutional aid made by academic departments are properly identified and federal aid packages are adjusted appropriately.

The University of Chicago Corrective Action Plan

University management agrees with the Auditor's finding and recommendation. To correct the condition, the University repackaged the affected students' financial aid and returned the over awarded amounts to the affected federal programs. Management also reemphasized existing policies and procedures to student loan staff and instituted a new reporting and analysis procedure to identify possible future instances of over awarded federal aid.

The corrective actions were completed before June 30, 2008.
